# National Safety Forum meeting

Health and safety (H&S) leads at all levels of the union are invited to attend the next meeting of the National Safety Forum on 4 October.

The NEC Health and Safety sub-committee has organised a National Safety Forum to discuss H&S work in the union for the year ahead.

The meeting takes place via Zoom on **Wednesday 4 October** from **12:00 to 14:00**. Attendees will be sent a Zoom link and a briefing/agenda in due course.

All group and national branch H&S leads are invited to attend, as well as any regional and equality H&S leads. The sub-committee would like there to be a representative from each group, national branch, region and equality forum in attendance.

There are several topics that the sub-committee would like to discuss. These include:

- Increasing the numbers and coverage of safety reps;
- Increasing the number and coverage of safety committees; and
- Improving the provision of information on H&S matters.

The forum is also an opportunity for lead H&S reps to propose ideas to the sub-committee about what the union's priorities should be.

Please email [healthandsafety@pcs.org.uk](mailto:healthandsafety@pcs.org.uk) to let us know who will be attending.
